

WildBytes - the e-letter from the Fish and Wildlife Compensation Program (FWCP) in the Columbia region - is pleased to be back in your inbox! Click on any headline below to read more.

The FWCP in the Columbia region is a partnership between BC Hydro, the Province of B.C., First Nations and community groups, to conserve and enhance fish and wildlife impacted by the construction of BC Hydro dams.

### Latest With FWCP-Columbia, in a Nutshell

The FWCP has gone through some positive changes in the last year and, following extensive community input, our commitment to deliver effective, on-the-ground, conservation and enhancement projects to support fish and wildlife impacted by the construction of BC Hydro dams remains stronger than ever.

### This Woman Has Cavities. Why is She Still Smiling?

Cavities may not be on the top of the wish list for most people, but nothing could please wildlife biologist, Irene Manley, more than the existence of a nice, deep, rotting-from-the-inside, dark hole. That hole, just to be clear, has to be located in the uppermost section of a strong, living, newly created wildlife tree.
