Start here: what is a final report task?

Final reports and a final statement of accounts are mandatory for all FWCP-funded projects. As soon as the project is awarded, the final report task and the final statement of accounts task are created. At the end of the project cycle, when the final report task and the final statement of accounts task are submitted and approved, FWCP will make the final payment owing on the project.

There are separate instructions for completing a final statement of accounts.

The main project contact and any collaborators on the project will have access to the final report task. For the purposes of these instructions, the contact or collaborators will be referred to as "the proponent" or "you."

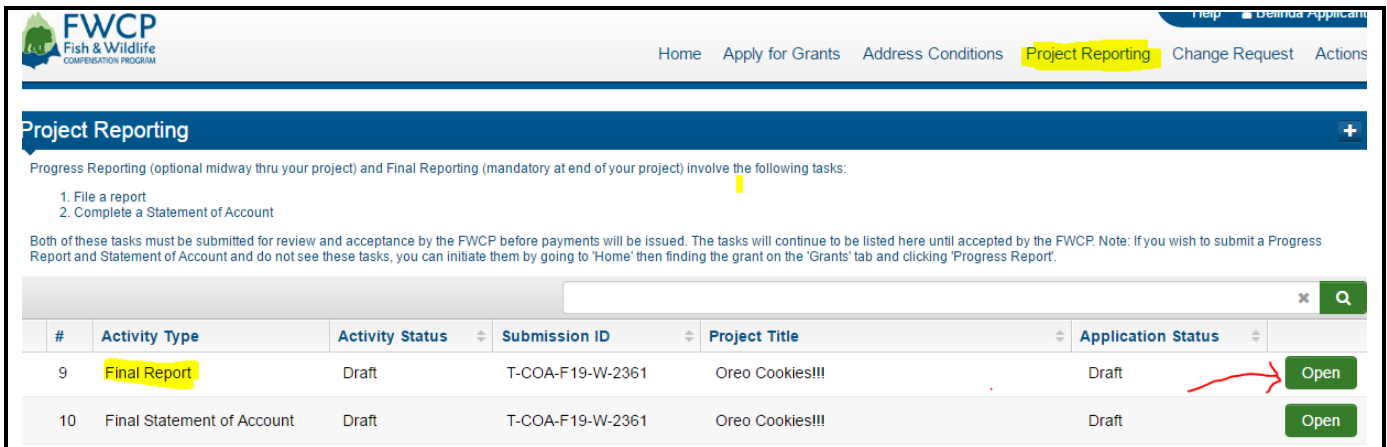

Let's get started!
